

Important Update: Radiology Report Turnaround Time Changes

Dear Referring Physicians and Providers,

Due to the widespread demand for limited radiology capacity, and our emphasis on subspecialist interpretations, we are adjusting our report availability timelines and are writing to ensure that you and our patients have accurate expectations regarding the availability of imaging reports. We continue to strive to provide competitive turnaround times, prioritizing high quality patient care, while maintaining collaborative physician relationships.

Our report turnaround times are based on traditional Monday to Friday business schedules. Read time is measured from the moment the patient completes their exam to when the radiologist finalizes the report.

Modality	Report Turnaround Time
X-Ray	1 to 3 business days
Ultrasound	
CT	
MRI	
PET	
Nuclear Medicine	
Screening Mammogram	1 to 2 business days
Diagnostic Mammogram	
Fluoroscopy	< 24 hours

If a STAT read is needed, please call our office to request with one of our representatives. STAT reads will be made available within one business day.

Please note, if a prior exam is required for comparison, mammograms may be held up to a maximum of 21 calendar days while all other studies are held up to a maximum of 10 business days.

We maintain committed to supporting our community's patient care needs and are available for any questions or additional assistance you may need. Please contact us at (858) 658-6500 or info@imaginghealthcare.com.

Thank you for your continued support.

Sincerely,
Imaging Healthcare Specialists
